Bilateral Meetings

- Thursday 09:30 - 15:30

Description

Heritage Environment Sdn. Bhd was incorporated on 12 May 2015. Since its establishment, Heritage has been engaging in the Research & Development and commercialization of Biopesticide, Biofertilizers, Waste Management and Treatment. We actively involved in Green Technology Business Activities- which commercially-viable and high potential biotech products and services, primarily for the Agricultural, Horticultural and Environment Conservation. BIOSENSE is a mother-brand with a range of 100% chemical free products and treatment scheme. Our unique online system called BONUSHIAU is especially designed for Public and School Communities to learn and participate in our Green Projects. Biosense is Great for Plant & Soil BIOSENSE increases the efficiency of fertilizer absorption in plants and reduce leaching losses. BIOSENSE is an environmental friendly product which promotes nature conservation. BIOSENSE reduces fungal infection, nematode damage, incidences of other soil-borne diseases and pathogens. BIOSENSE promotes soil rehabilitation and improves soil fertility over time. MAIN PRODUCTS: BIOGUARD AND COMPOSTING FERTILIZER FROM KITCHEN WASTE
