Bilateral Meetings

- Thursday 09:30 - 15:30

Description

Center for Education and Research "Nahla" is empowering women through education and creation of an environment conducive to personal development and competent participation in social processes. "Nahla" enables women to acquire competences which are relevant in modern society and which help their personal and professional development. We work actively to support economic, mental, spiritual and physical empowerment of women. In three educational centers in cities of Sarajevo, Tuzla and Bihac we create an environment which inspires more than 10 000 women yearly to exchange experiences, see new perspectives, use their own potentials and bring joy of life into their everyday lives. Our activism inspires other organizations and individuals to participate in social changes. We give active support to women in exercising their human rights and getting equal opportunities in society. "Nahla" supports family and nurture positive family values in the spirit of partnership and mutual appreciation among all its members.
