Bilateral Meetings

- Thursday 09:30 - 15:30

Description

DIORIT Company established in 2011 and started its journey with a very strong and challenging motto “building solutions together”. Today the company operates in several directions and the most important are: bridge construction, tunnel & mining (threaded bar anchors), geotechnical engineering, structural engineering and slope stabilisation. We have our footprints in numerous projects not only in domestic market, also in all countries in the Balkan region. Products manufactured by Diorit suppliers have been used many years without any problems. Customer satisfaction with the high quality production implementation and service is the highest priority for Diorit. To achieve this goal, we see our customers, suppliers and employees as our business partners and indispensable building blocks of our company.
