Basic information about the company

- “Žitopromet”JSC Bijeljina was founded in 1961 as a company for agricultural marketing and processing of grain and food production and since then it has been operating continuously. In 2001 it was privatized and the name was changed into “Žitopromet” JSC.
- Main business of “Žitopromet”JSC Bijeljina is:
 - marketing and processing of wheat-
production of wheat flour
(T-400, T-500, T-550, T-710,T-850)
 - production of wheat bran, grits, semolina
 - production of corn flour and corn meal
 - storing and drying of grain as a service
 - production of animal feed
 - bakery goods production
 - catering and trade activities.

production, bakery production and production of animal feed

Production is organized in three working units:

- Working unit Mill 1 (Processing of wheat, storing and drying of grain as a service and certified laboratory analyses)
- Working unit Mill 2 (Processing of corn and animal feed production)
- Working unit Bakery (Production of bakery goods products)

New international markets (mostly in the Republic of Turkey) “Žitopromet” has led to an increase in production volume in all operating units. There is a need for improving the manufacturing process, i.e. obtaining higher quality products, increasing production, productivity and capacity, which also results in opening new posts. The analysis showed that new machinery and equipment is necessary.
